

# TOM DALLIMORE

I was born and raised in the renowned city of Bristol. Since growing up within the industry of my father's Graphic Design company, I have developed an unhealthy obsession to all things related to technology and the web.

I decided to channel this passion by learning UI design and web development. Refining my skills over the course of six years, I have flourished into an ambitious business-driven individual.

I have spent the past few years freelancing and contracting for some exciting companies including Dyson, Blak Pearl and Future PLC.

## WEB DEVELOPER DYSON

Malmesbury, UK  
08. 2012  
Present

I was initially brought on to introduce exciting new functionality, such as interactive navigation, carousels and animations; however I quickly took up the role of deploying the Dyson online store into their new Chinese market. In recent months I've been technical lead on several high profile product launches.

## FRONT-END DEVELOPER RUCKUS MEDIA

Bristol, UK  
03. 2010  
07. 2012

After a few years within the industry, I decided to do some contracting and gain within new business sectors. I quickly learnt how to adapt my workflow to tight deadlines; working for some exciting companies including: Future PLC, Tarzan Furniture, Jordan Belfort and VIS Promotions.

## LEAD DEVELOPER BLAK PEARL

Portishead, UK  
01. 2011  
03. 2012

I acted as the Lead Developer for the Business 2012 project and aided in the production of the interactive website. Our goal was to create a platform to enable visitors to book seminars, products, exhibitors & workshops for a business exhibition being hosted at the O2 Arena in March 2012. The business startup pressures of tight deadlines made this an exciting role to be involved in.
